1. EMPLOYEE TERMINATION

This manual includes the following processes:

Employee Termination 6.2.2	
6.2.2.1	6.2.2.2
Capture Employee Termination	Generate Employee Termination Reports

1. Capture Employee Termination.
2. Generate Employee Termination Report.

Employee Termination is a step-by-step process on the Sebata EMS System whereby the user will be guided by the system to terminate an employee. An employee can be terminated for various reasons for example retirement, dismissal or resignation.

At any stage the creation process can be stopped or cancelled.

	Icon identifies the role player (Capturer)
	Icon identifies the role player (Approval)

5.2 Capture Employee Termination

Follow the menu below to capture Employee Termination:

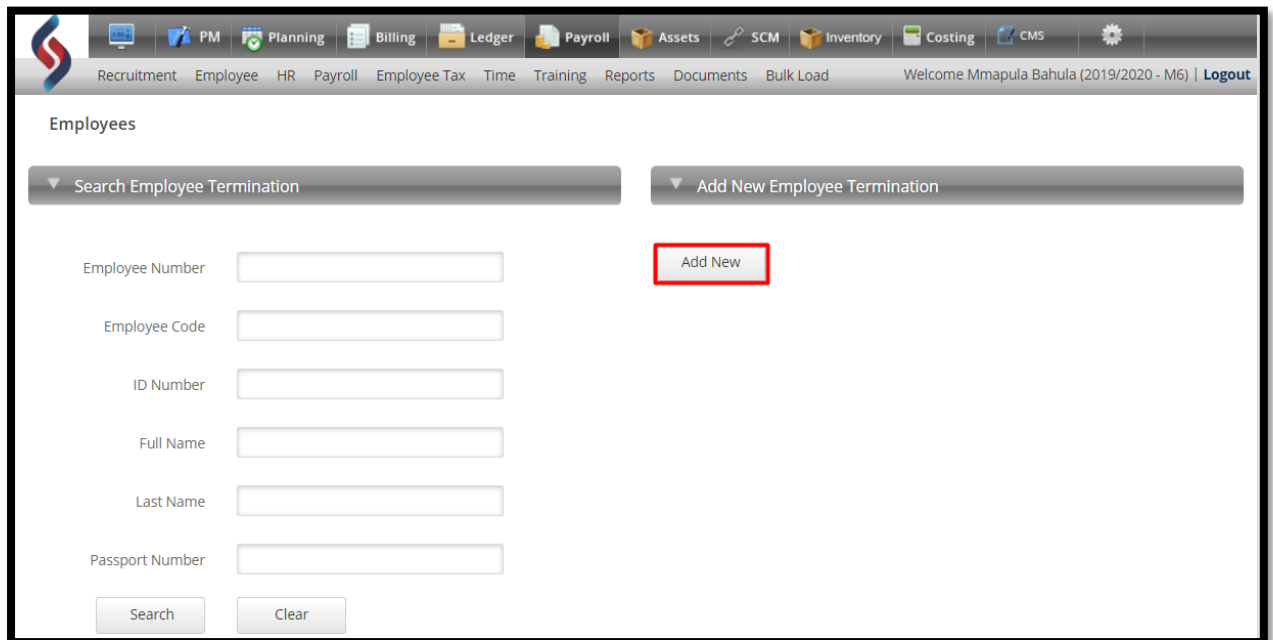

Termination of employment refers to the end of an employee's contract with a company. In this section an employee termination can be captured and/or modified. There are different types of terminations such as:

- Deceased
- Dismissal
- End of fixed contract
- Incapacity
- Resignation
- Retirement

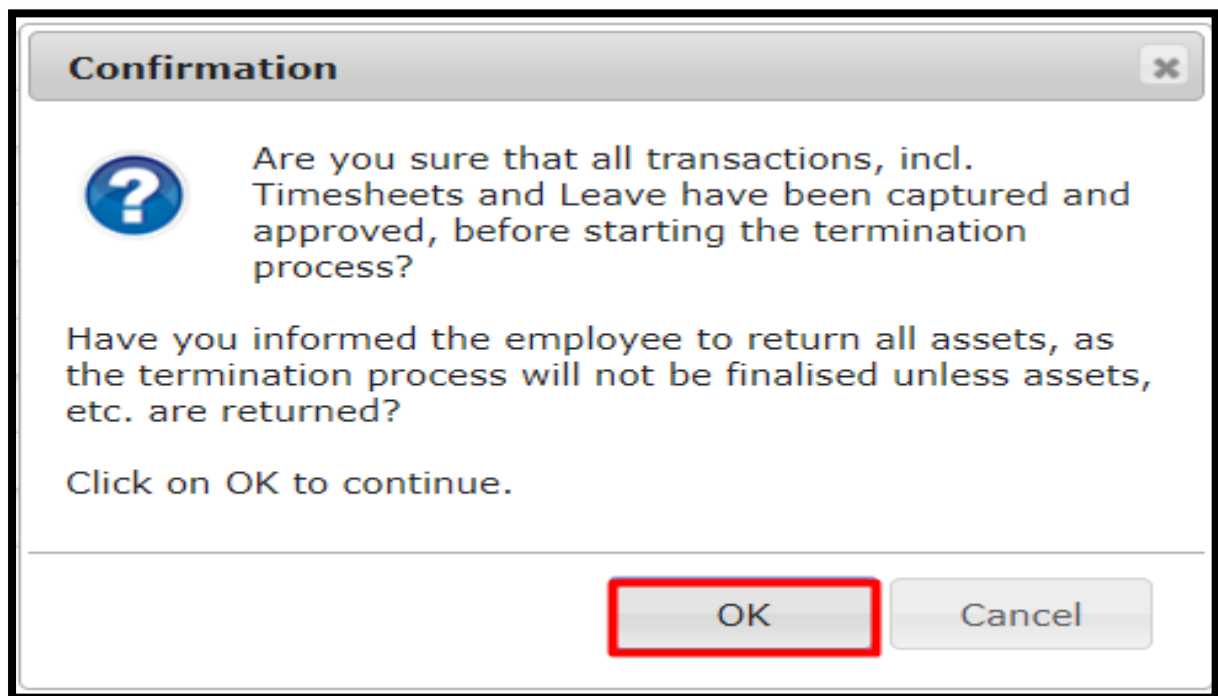

Click “Payroll” in the primary navigation bar.

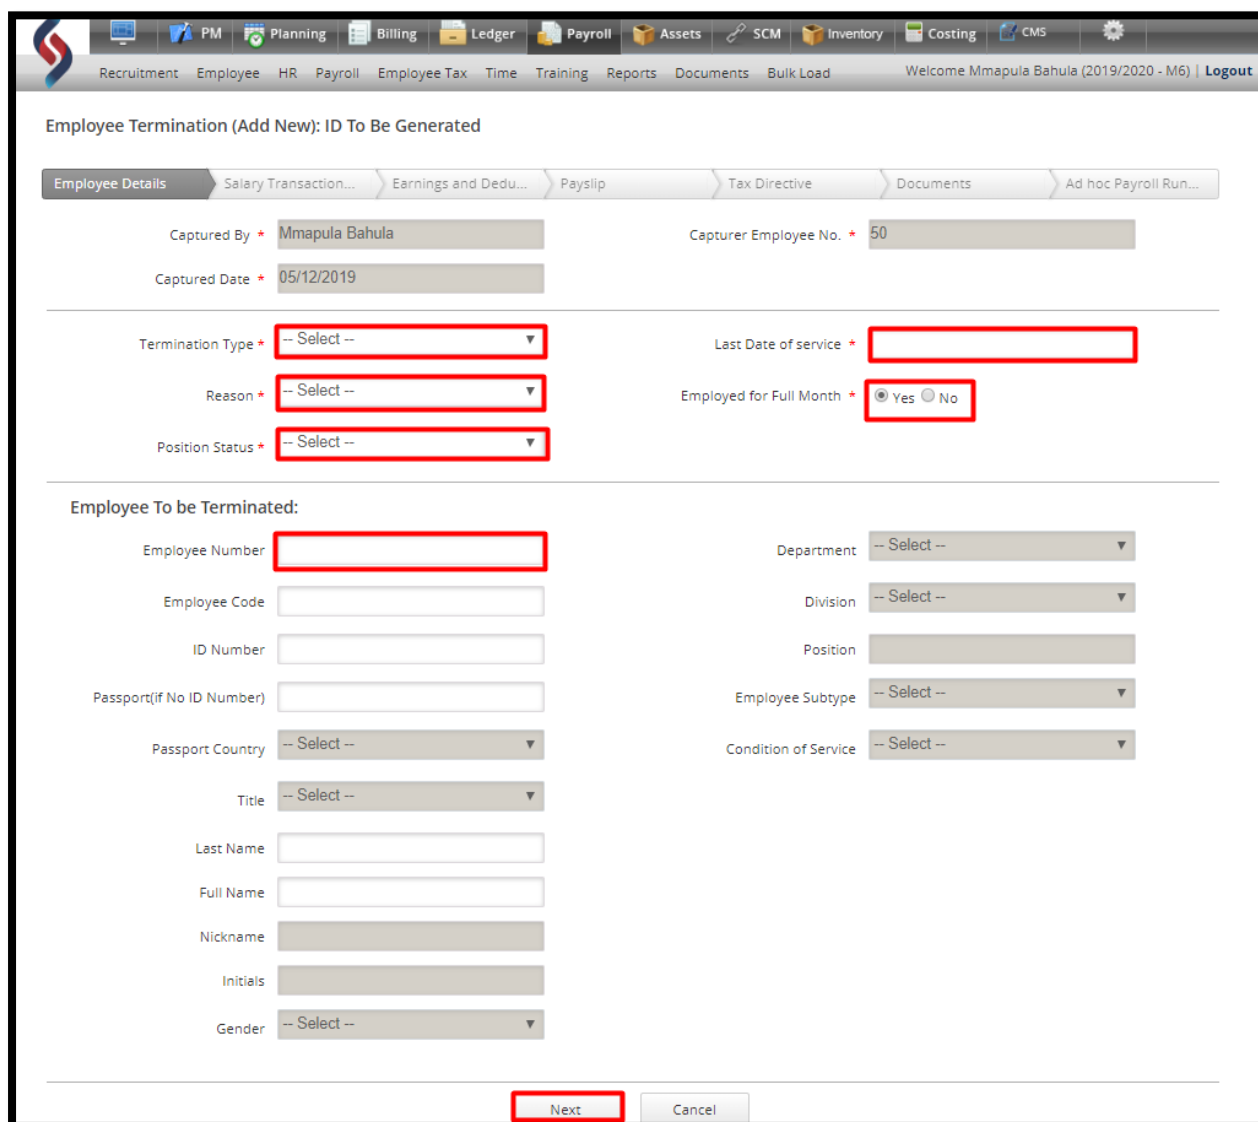

Select “Employee” in the secondary navigation bar, then select “Employee Terminations” and the employee termination screen will populate.

The screenshot shows the 'Employees' screen in the SEBATA system. It features a search bar labeled 'Search Employee Termination' and a button labeled 'Add New Employee Termination'. Below these, there are input fields for 'Employee Number', 'Employee Code', 'ID Number', 'Full Name', 'Last Name', and 'Passport Number'. At the bottom, there are 'Search' and 'Clear' buttons. The 'Add New' button is highlighted with a red box.

Click “Add New”

Click "Ok"
