Notes:

This image shows a full page of primary-ruled paper. It features multiple sets of horizontal lines designed for handwriting practice. Each set consists of three lines: a solid top line, a dashed middle line, and a solid bottom line. These sets are repeated down the entire page, providing ample space for practicing letter formation and alignment. The paper is otherwise blank, with no margins or additional markings.

5.3 Modify Claims

Follow the menu below to capture a Claim:

In this section, if the claim transaction was submitted but not yet approved. User can edit/modify the transaction then submit it for approval again.

When the Submit button is clicked the system update the status of the transaction to Await Approval, then the approver need to approve the transaction to display on the Pay slip view.

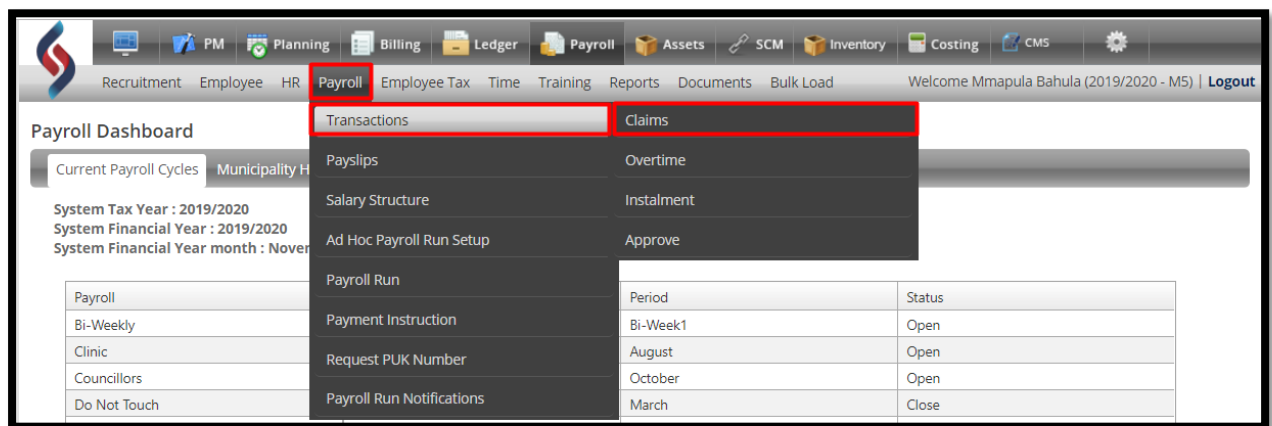

If the claim transaction was rejected, the user can go into the claim transaction, make changes then re-submit it for approval.

Validation of Trial Run

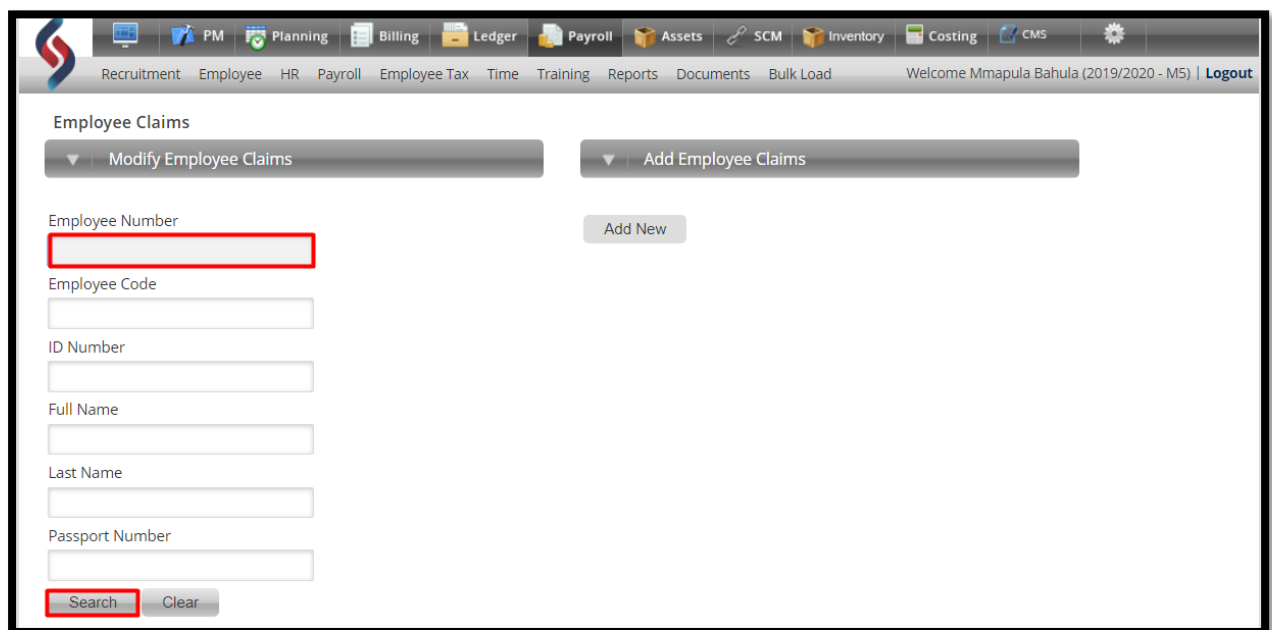

If an employee has unapproved claim transactions the trial run for the cycle will fail. All captured claims transactions must be approved for the Trial and Final run to succeed (This validation will also cause a pop-up message on the Employee Details page and the Pay slip View page as these two pages trigger a Trial run).

Validation on the claim transaction date-transactions older than two months will be rejected by the system and printed on the Transaction Date Exception report that is generated by the system during the trial run.

Click "Payroll" in the primary navigation bar.

Select "Transactions" in the secondary navigation bar, select "Claims" and the claims screen will populate.
